Tap into Global Strategy's knowledge and industry focus to help you seize opportunities in the shift to a resource-efficient and low-carbon economy. We are a boutique consulting firm providing targeted business development solutions, focusing on Open Innovation, Market Development and Business Intelligence.

Whether you are an emerging company seeking new sources of capital investment to drive scaleable growth, a developer looking for guidance on large-scale renewable energy technologies or a global corporation trying to gain entry into new markets, Global Strategy consultants can help make the most of the growing opportunities in the Clean Tech marketplace.

Our corporate strategy work focuses on the most important sources of business value based on a keen understanding of emerging technologies and corporate partner relationships as well as competitive and regulatory environments.

Competitive Advantages

- Customized assignments tailored to the requirements of the client;
- Proprietary TOPTECH search methodology for synergistic product and partner matching;
- Personally-developed relationships with key executives at companies, government agencies, financing organizations, and universities worldwide;
- Global expertise through our Global Consulting Network, a network of business consulting firms located in 65+ developed and emerging markets;
- Expertise in identifying, qualifying, and reporting *under the radar* business opportunities and intelligence; and
- Proven track record of creating profitable partnering relationships and generating value-added, actionable business intelligence.
